Pick O' The Month

Yes, You Can Change The World

by

Aman Motwane

You will see why, when you change the world in this way, the ripples are felt by people you don't even know — ultimately, making the world a better place.

Yes, You Can Change the World comes to the world at probably one of the most critical junctures of our history. Join the journey. Ignite the revolution. Because, yes, together we can — and must — change the world.
