Pick O' The Month

Regretland

by

Adrienne Golday

Regretland has been called a "passport" for life's travels, a true "revelation in consciousness, taking its readers from the despair of yesterday's regrets" and emotional loss to a "timeless universe" that offers new and unending possibilities. "We are told that our thinking creates our world, but rarely does a book come along that "helps us to actually recondition the way we think. **Regretland** shows us the mental traps "we fall into of judgment, comparisons and ego, as we travel with "JOE" the main character " who takes us on a journey to recreate success and discover love and bliss forever.
